

What educational programs have been built within and through this STS formation?

In 2016, the Master's Degree program in "Science, Technology, and Society" was launched under the Institute of Social Sciences at Istanbul Technical University (ITU). Currently, it is the only program in Turkey that awards MA degrees in STS. It has also established Erasmus+ connections with "Science Studies" Master's Degree Program of Aarhus University, Denmark and "Science and Technology Studies" Master's Degree program of Munich Technical University, Germany.
